

## Safety Precautions for On-Site Worship

As gather on-site again for worship, here's what you can expect with our Covid-19 Safety Precautions:

- We will be following the now familiar practice of social distancing and wearing face masks.
- We will be holding a single service at 10:00 a.m. with a blended worship style, to eliminate the need to clean between services.
- We will continue to livestream the service on Facebook and YouTube and through the Streamspot player on our website. If you are not feeling well, please worship with us online. If you are in one of the highly vulnerable categories, we encourage you to follow CDC guidelines and consider worshipping online as well.
- Please aim to arrive by 9:45am so that you have time to check in and get settled before we start the livestream. Doors will open at 9:15am. We will have greeters to check you in, in case we need to do contact tracing. We will also be taking a couple of photographs of those in attendance, which will only be used if we need to see where you were sitting for contact tracing.
- To reduce the amount of time indoors together, we will be using the side Narthex doors (by Washington Rd.) as the primary entrances to the Sanctuary. The Drive-thru entrance will be open only for those who need the elevator.
- When you enter the building, we will ask you to use hand sanitizer. We will have face masks available at the entrances if you do not have one. Masks are required for anyone over 2 yrs old.
- Ushers will help to seat you when you arrive, using every other pew.
- We will not be passing the Offering Plates during the service but will have them available at the exits to accept your contributions. You can also donate online at [mlepc.org](http://mlepc.org).
- Our ushers will dismiss you by rows following the benediction. Visiting with people outside is much safer than lingering inside, so please head outdoors if you would like to talk.
- You may want to bring a water bottle with you, since the water fountains will not be available. The restrooms near the sanctuary will be open.
